Copy of Budget Narrative Attachments 9 1 16 (7).xls

Please find the copy of the 2017 budget which includes the Budget figures shared from the emails sent previously. I have gone online to grants.gov and changed the 424a for the 2017.

Just to let you know, we continue to experience our computer and internet issues, but at least in the past two days I have been able to send and receive emails. Unfortunately, my printer that I bought last year may have to be replaced. Not happy with that purchase.

The great news is I presently share an office with our IT Person who is allowing me to share his printer. These have not been easy times for us at Walker River, but Chairman Torres can also be reached for comment or verifying this information.

In this past week I have done the Air Quality grant and Brownfields grant. I intend on presenting, GAP 2017 & 2018, Brownfield 128a, Air Quality which is very early to be sent to EPA for review. I do not intend on being the staff person for the Air Grant but because I provided the supporting reports and follow up to that grant I am on the grant only in name identifier for completion.

I have scheduled a site visit for the Brownfield EPA Representative for Friday 12/09/16 to tour our areas of concern.

I believe I have also sent the email in regards to the Mineral County Hazardous Mitigation Emergency plan which FEMA Region 9 contact is sending the hardcopy plan to us this week. This is very exciting because it means we have partnerships with the Emergency Folks in Mineral County officially as a collaborative partner.

I must note that I was on line with GAPonline and the changes I made for the indicators, to commitments prior to 11/21/16 were not on there. I do not know what to think about that. I do know I get kicked out of the system at times when I am on GAPONLINE. I will need assistance with that and I need clarification for changes.

I will be in touch, should I think of additional information for you all.

Best Regards,

Cynthia Oceguela
